Trump Escapes Pedo-Past Dining with Techno Gulag Co-Conspirators as Zionist Genocide Rages

On Thursday September 4th, the self-admitted most Zionist Jewish President in US history Donald Trump held a White House dinner where he and the First Lady were flanked by all the Big Tech billionaires from Hell – Bill Gates and Mark Zuckerberg and all their fellow Tech mogul friends. Among other hungry guests at the billionaire dinner table trough were Apple's Tim Cook, OpenAI's Sam Altman and Greg Brockman, and Google's Sergey Brin and Sundar Pichai. This fascist marriage between the Trump federal government and the AI surveillance thought crime techno-police should send a chilling message that we Americans are all Palestinians now, lined up in End Times' overpopulation kill crosshairs.

The reported reason for this fancy get-together was ostensibly to celebrate the garish Trump makeover of the White House Rose Garden, egotistically turning America's historic White House into another glitzy Trump Mar-a-Lago 2.0. But the real reason the Donald chose to entertain and feed his chummy Tech wizard friends was to mark the launch of the 24/7 surveillance state's digital gulag, using Americans' hard-earned tax dollars to finance their own genocidal demise. The gateway to mandated digital IDs, CBDCs and the Chinese model social credit score system is fast coming to a neighborhood near you, like it or not. Fully endorsed by the likes of the World Economic Forum's Klaus Schwab and its current acting chairman BlackRock CEO Larry Fink, under the Chinese Communist Party's model of the "Digital Cage," virtually every moment of its citizens is tracked and confined through the 24/7 surveillance straightjacket. Everything at the instant ready push of a button worldwide, perfect for

eliminating the inconvenience of having to leave your 15-minute smart city home when travel and private motor vehicle transport are off limits for the enslaved global masses.

According to Reinette Senum's September 5th *substack.com* article entitled "Dethroning Big Brother: China's Social Credit Rebellion Goes Viral," under enforced digital currency now, citizens of China are in open revolt, fiercely challenging the oppressive authoritarian state's digital yuan (called e-CNY). It's among the New World Order's first beta test run of CBDCs essentially outlawing all cash as a means of strictly controlling 1.4 billion people's every financial transaction through the shackles of a state-run digital cage. Salivating power-hungry controllers, epitomized by the WEF, have been watching China very closely, planning to apply this top-down control system of centralized digital currency-social credit to the entire world. The digital yuan has been promoted as a global digital currency to replace the US Dollar as the international reserve currency. Globalists laud the digital yuan as a faster, cheaper, more efficient means of universally simplifying all cross-border transactions, sold as the way of the future.

From Reinette Senum's post:

> Only one month ago, life in China took an even sharper turn for the worse. The government made no effort to seek understanding or consent in this audacious plan; it mandated the download of apps, redirected salaries into the e-CNY, and required vendors to accept only state-controlled digital tender, **overnight and without warning**.

The Beijing government suddenly froze citizens' life savings in bank accounts and began touting how this new 3-CNY nationwide policy virtually eliminates all financial crime, fraud, money laundering and tax evasion. The digital yuan is also being sold as an inclusionary bonus to reach millions without bank accounts and given the standard sales pitch of offering greater "convenience," cutting costs and increasing efficiency. **Those caught unaware of this draconian scheme may initially buy into this slick diabolical deception, not realizing without consent they are all now imprisoned in a digital surveillance gulag, and if they disagree or protest against this micro-tyranny of absolute state control, their digital assets required for survival suddenly vanish with the centralized grid's push of a button. So, this is the game-plan that Trump and his techno-fascist comrades were actually celebrating last Thursday night.**

For all the delusional diehards still believing Donald Trump is our Make America Great Again savior, THINK AGAIN!!! The elites are brazenly making self-congratulatory toasts at the White House for collectively moving in for the kill – their endgame orgasmic wet dream come true kill – downsizing and eliminating the "obsolete" human race from their rightful, God given, God created natural Planet Earth home. These devils' disciples are moving in Warp Speed busily terraforming our carbon-based planet into their own AI robotics silicon-based, scorched earth planet. Their thousands of hastily constructed AI data-centers going up across America (and world) are placing all of us earthlings at grave risk, greedily soaking up and depleting our precious limited water supply amidst growing drought conditions, as well taxing our already overburdened, highly fragile electrical power grid, paving the way for Lucifer to finally lay sole dominion claim over our natural earth.

It appears whatever positive, life-affirming, moral forces on our planet seem either too weak and/or disunited to rise up with sufficient strength to collectively stop this out-of-control monster rearing its ugly head to establish a technocratic totalitarian one world government, a dystopian nightmare coming true hell bent on destroying all life as we know it. The genocide of Palestinians is just their beginning. Since no force has yet to stop it, the psyops is full speed ahead against the entire human race.

I've often said that the good humans of this earth alone appear incapable of smiting this Darkside serpent dragon without some sort of divine heavenly intervention from God to help us overcome this spreading, cancerous, life-ending human purge. Both combined prayer with decisive mobilized action are urgently, courageously needed to demonstrate that our long-abused species capably strong enough to overcome our centralized common foe. Fear, weakness, ignorance and disunity are exactly where our predators want us, feeling too powerless and defeated to rise up and vanquish our Darkside enemy.

Speaking of rising up to fight the evil, on Wednesday September 3rd in a bipartisan effort seeking release of those buried controversial Epstein files, led by Kentucky GOP Congressman Thomas Massie and California Democrat Congressman Rho Khanna, they invited over a dozen Epstein victims to the Capitol to speak in both a closed session before members of Congress the day before on Tuesday, followed by Wednesday's press conference. Rep. Khanna stated that with only 1% of the Epstein files released, 212 Democratic Congress members and four Republican members, Massie, Marjorie Taylor Greene, Nancy Mace and Lauren Boebert, leaves just two votes short. If two more House Republicans sign a Discharge Petition, it will force the Justice Department's full disclosure of all Epstein-related documentation. Trump, who for at least a decade and a half ran with Epstein in the same Palm Beach-Manhattan social circles as a fellow accused child rapist, now as second term president desperately wants this problem to go away, days ago claiming it's a politically motivated "Democrat hoax" to take attention away from his administration's glorious successes.

Pure grandiose delusion seeping out of Trump's diaper-wearing shitty ass. Right after the press conference the White House released a statement that could easily be read as a threat to any House Republican contemplating joining the 216 Congress members

already demanding that the DoJ release the files, calling it “a very hostile act to the administration.” Essentially that means pitting opposition candidates in their next primary. Will two more Republicans have the balls to actually sign on?

Prior to the press conference, to further thwart Massie and the Epstein victims’ full disclosure demands on the “disappeared/nonexistent” files, wimpy House Speaker Mike Johnson obediently rushed to the president’s rescue, endorsing a plan to release last Tuesday watered-down, already posted records by the House Oversight Committee as a smokescreen to placate those demanding justice. On Tuesday lapdog Johnson tried appeasing public demand with yet more feeble excuses pretending there is no Trump coverup:

> *I’ve spoken to the president myself about this many times. He is as insistent as we are. He is the most transparent president in memory, probably in the history of the country. If he was here now, he would stand here and take your questions endlessly. That’s his mindset, and he wants the American people to have information so they can draw their own conclusions. I’ve talked with him about this very subject myself, so I can tell you that his heart. Now, he also — just as we do — is insistent that we protect the innocent victims, and that’s what this has been about.*

Then after Trump referred to the latest Epstein escapades as a “Democrat hoax,” when asked about it on Friday September 5th, in Trump’s defense, Johnson made a highly suspect claim that had never gone public before, disclosing:

> *He* [Trump] *was an FBI informant to try to take this stuff down.The president knows, and has great sympathy for the women who suffered these unspeakable harms. It’s detestable to him.*

Johnson is a totally disgusting lying toad. As always, none of this banter has anything to do with the actual Trump the man or his current regime ever protecting the innocent, but everything to do with protecting guilty child rapists, and everyone with half a brain has known this for years, even decades. But narcissistic pedophile Trump would rather appear delusional burying his head up his ass while allowing his sycophantic House Speaker to blow false smoke up his ass. Bottom-line, Trump made repeated campaign promises to transparently get to the bottom of the so-called Epstein files, only to, once elected, never follow through.

Trump has to know by his blatant avoidance he's only digging a deeper hole for both himself and his precious presidential legacy. His anger and extreme avoidance only projects to the American public his own admission of guilt by omission. We all know that if he had nothing to hide, he would have followed up on all his false campaign promises a long time ago, releasing the thousands of documents redacted to protect the innocent, not the guilty allowed to evade prosecution.

Revealing the Epstein truth never happened because the criminal guilt connects directly to Israel as a Mossad blackmail operation, and the guilty, compromised VIP pedophiles include Trump himself as well as a number of other powerful politicians, billionaires and famous people. As always, all will get a free pass to never ever pay for their sick crimes. When the system today is so rotten to the core, it's not willing to sacrifice itself by coming clean. Satanic evil is far too embedded in this degenerate ZOG-drowned cesspool to ever police itself on its own. With history documented in *Pedophilia & Empire* books showing it never happened before, chances of it suddenly changing now are totally zero.

The power establishment is hardly going to admit its guilt perpetrating this global pedophilia scourge, especially when the masses are growing angrier by the day

watching more family and friends still dying suddenly from their premeditated lethal vaccine jabs, or witnessing the Western puppets' total insanity with no diplomatic effort toward peace as we freefall towards World War III, or the irreversibly broken economy deliberately on the brink of total collapse, on top of traitor Trump's deepening MAGA betrayal. With the entire world ready to explode in vengeance against the genocidal elites, the last thing they want is full disclosure of their unforgivably ungodly sins. Yet We the People demanding justice and protection of our children can never let this travesty go. Standing at doomsday crossroads, justice must be met if anything is ever to change, and defenseless children must no longer be sacrificed as the evil grotesque system's blackmail currency. At the Wednesday press conference, the Epstein survivor group and their lawyer Brad Edwards asserted that with their own firsthand accounts, together they will come up with their own Epstein client list.

In another development surrounding the files' imminent release, James O'Keefe from Project Veritas captured on camera Department of Justice deputy chief Joseph Schnitt readily admitting on a date:

> *DOJ Deputy Chief Admits Government Will 'Redact Every Republican' While 'Leav[ing] All the Liberal, Democratic People' on the Epstein Client List; Says Ghislaine Maxwell Was Moved to a Lower-Security Prison As 'A Benefit… to Keep Her Mouth Shut'… 'She [Maxwell] got transferred to a minimum security prison… It's against BOP* [Bureau of Prisons] *policy because she's a convicted sex offender.'*

The pedo-plot thickens as pedos in high places like Trump is literally shitting even more in his diapers. There's reason why history's oldest US president to take office at 79 has history's third youngest Vice President, JD Vance proclaiming last week that's he is ready to step up should anything happen to the Donald. After the press reported that Trump's bruised hands and swollen ankles, both visibly exposed, were caused by poor blood circulation, indicating Trump could keel over any time from congestive heart failure, it prompted Vance to tell *USA Today* last week:

> *Yes, terrible tragedies happen. And if, God forbid, there's a terrible tragedy, I can't think of better on-the-job training than what I've gotten over the last 200 days.*

Vance owner Zionist Peter Thiel and his Palantir Technologies' Digital Gulag-in-the-making are raring to go full speed ahead, churning out US human data harvested dissident lists for "precrime antisemitic hate speech" for simply daring to criticize Israel's genocidal slaughter of Palestinian children. Again, this is why Trump and his techno-fascists were raising their glasses in celebration last Thursday.

Meanwhile, speaking of those being rounded up for calling out the mass extermination, on Wednesday September 3rd West Point graduate Ret. Green Beret Lt. Col. Anthony Aguilar, most recently a Gaza Humanitarian Foundation whistleblower, along with former Army intelligence officer Capt. Josephine Guilbeau, were arrested for disrupting a Senate Foreign Relations Committee hearing on ambassador nominations. Wearing their uniforms, the two ex-officers chose to interrupt the hearing knowing their arrest would present opportunity to publicly protest US criminal complicity in Israel's genocide against Palestinians.

Notice how all this week's news breaking incidents share a common interconnected thread? All illustrate the widening gap between the Trump regime's unjust, tyrannical, corrosively divisive policies generating a growing backlash from pissed off US citizens that voted for him. Along with the Trump pedo-coverup, millions of betrayed Americans are increasingly upset with how everything is falling apart, and they are demanding justice. Because of Trump, both Israel and America are increasingly viewed by the rest of the world as detested social pariahs. Trump's only escape is his rush to war, be it against Venezuela or a half dozen other hotspots boiling over. Thus, Trump's only way out of this raging inferno wrath against him is the imminent false flag excuse that will render him a wartime president, not unlike Zelensky and Netanyahu. The only means of staying in power for all three of these despicable war criminals is with wartime powers and Trump's declared emergency martial law due to the riots about to erupt at home.
